EDUCATION

VELLORE INSTITUTE OF TECHNOLOGY, BHOPAL

Bachelor of Technology, Bioengineering
Cumulative GPA: 8.32

August 2021 - May 2025

ASNANI SCHOOL, BHOPAL

Higher Secondary Education
Percentage: 90.81%

May 2020 - July 2021

ASNANI SCHOOL, BHOPAL

Secondary Education
Percentage: 87.49 %

March 2018 - April 2019

CERTIFICATIONS AND SKILLS

Certifications: MS Excel by Udemey.

Technical Skills: Notion, Slack, Microsoft Office Suite, Google Workspace, Microsoft Excel, Google Sheets.

Soft Skills: Interpersonal skills, Leadership (Head girl in school & Joint Secretary at a club), Communication, Management (Lead college events) and Resilience.

INTERNSHIP EXPERIENCE

APOLLO 24|7 (Gurugram)

Trainee Program Management

October 2024 - December 2024

- Supported to collect the data for a project through data extraction, data scraping, lead management and data entry for initiating a project along with coordinating and assisting the doctors to onboard the platform at this digital healthcare startup.
- Effectively used MS excel and Google sheets to make prompts for data scraping and collecting. Data scraping by Google Maps Extractor.

LUPIN LTD. (Bhopal)

Vocational Trainee

November 2023 - December 2023

- Supported pharmaceutical operations, including API analysis, tablet checks, and environmental monitoring.
- Collaborated with teams to adhere to quality control best practices and gained valuable experience in project coordination.

UNIVERSITY PROJECTS

A White Paper on Rare Diseases In India- An analysis by Undergraduates

April 2023 - November 2023

- Analyzed to improve the affordability of treatments for patients.
- Authored and proofread key sections of the white paper, ensuring accuracy and clarity, contributing to a 30% enhancement in the overall quality and readability of the document.
- Collaborated with 4 team members to gather and synthesize data, resulting in actionable insights and recommendations for improving access to rare disease treatments.

Nanotechnology Its Applications In Face Masks

June 2022 - October 2022

- Investigated and implemented nanoparticle applications, achieving a 95 percent improvement in filtration efficiency and enhancing antimicrobial properties by.
- Analyzed 2 types of commercial face masks and identified significant gaps in protection, improving awareness of how nanoparticle technology can bridge these gaps.
- Enhanced breath-ability and comfort, resulting in a 30 percent increase in user satisfaction and durability.
- Worked with a team of 4 members to innovate self-cleansing surfaces, incorporating biomaterial technology to reduce maintenance requirements and increase the lifespan of face masks.

Materials Capable Of Purifying Water

November 2022 - March 2023

- Investigated and applied porous polymers, achieving a 95 percent removal rate of microplastics and VOCs from water using the photo thermal effect.
- Cooperated to implement photo thermal technology, incorporating biomaterial solutions to improve purification.

ACHIEVEMENTS

- Joint Secretary of iOS Club at college (VIT- Bhopal), led 5 offline events and 3 online events with a team of 15 people during my tenure.
